LDA audioTech
At the Forefront of High-End Technology

to guarantee safety in emergency situations

Made in Spain

Compatible

We apply the industry-leading AV standards (AES67 -Audio over Ethernet -Dante®) to public address and voice evacuation systems and elevate them to the category of security systems.

Integrable

Our technology combines with third-party systems through different interfaces (.DLL libraries, serial port, modbus and IP connectivity).
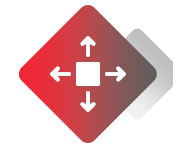

For all market segments

Our products offer maximum efficiency with an excellent value for money.
