

TFL-1

The LDA End Of Line Device provides an accurate measurement of the speakers line impedance in order to test the integrity of the connection between the speakers and the PA/VA system. It is a small device very simple to install in 100V or 70V lines, It has a low power consumption and several devices can be connected to the same speakers line.

Features:

- Monitoring of 70 or 100V lines
- Easy connection
- Easy installation, surface mountable
- Several devices can be connected to the same speakers line
- Small dimensions
- Low consumption

Technical

Model	LDATFL1S01
Light indicator	Activation (red color)
Input	100V or 70V PA line input, Max. consumption 15mA, 2 Pin Euroblock type (orange color)
Output	Isolated contact closure output, NC, Max. 60V DC 130mA, 2 Pin Tipo Euroblock (red color)
Enclosure	ABS, Black RAL9005
Weight	29 gr / 1oz
Dimensions (H x W x D)	66,3mm x 20mm x 50mm / 2,61in x 0,73in x 1,97in
Accessories	Male Euroblock Connectors
