

ONE-PTT

Ref: LDAONEPTTS03

The **ONE-PTTS03** dynamic microphone adds more versatility and **PA/VA** functionality to your **ONE500 V03** unit.

ONE500 V3 devices include a dedicated PTT-MIC input, taking control all audio sources.

Microphone has a built-in magnet to attach it to every metallic surface, improving its use in emergency situations.

Key features:

- **EN54-16** and **PA/VA** functionality compliant
- **ONE500 V03** system compatibility.
- Priority over other audio sources.
- **Firmware 3.01.01.XX** or above.
- Easy installation & use.

Easy Installation:

- Plug it in its dedicated connector and screw connector in the rear opened die-cut.
- Attach the microphone to any easy-to-access metallic surface.
- More details about installation and use in: www.lda-audiotech.com/en/web-support/
